To whom it may concern,

LEED Information: Materials and Resources (MR) Credit for Nomaflex®

This letter is to certify that Nomaflex®, semi-rigid, closed-cell polypropylene foam preformed joint filler material as manufactured by Nomaco, Inc. in Zebulon, NC, is produced with a minimum of 50% post-consumer recycled material.

We further certify that Nomaflex® is 100% recyclable and with proper use and handling, contributes no waste at the construction site.

Nomaflex® may help contribute to LEED Credit in the following Materials and Resources categories:

MR Credit 2: Construction Waste Management – up to 2 points
MR Credit 4: Recycled Content – up to 2 points
MR Credit 5: Regional Material – up to 2 points contingent on project location

If we may be of further assistance, please contact us.

Best regards,

Larry Weimer
Technical Sales Manager
Nomaco, Inc.
