To whom it may concern,

Nomaflex® Jet Fuel Resistant Certification

This letter is to certify that Nomaflex®, semi-rigid, closed-cell polypropylene foam preformed joint filler material as manufactured by Nomaco, Inc., per the physical property performance requirements listed in the Nomaflex® specification sheet and ASTM D 8139 is jet fuel resistant, compatible with both cold-applied and hot-applied joint sealants, and is suitable for use as a preformed expansion joint filler for airfield concrete pavement.

For additional information or questions, please feel free to contact me directly via the email address or phone number below.

Best regards,

Larry Weimer
Director of Sales
